

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF DELAWARE**

IN THE MATTER OF THE APPLICATION OF)	
TIDEWATER ENVIRONMENTAL SERVICES,)	
INC., FOR A CERTIFICATE OF PUBLIC)	
CONVENIENCE AND NECESSITY TO PROVIDE)	
WASTEWATER SERVICES TO ONE PARCEL OF)	PSC DOCKET NO. 05-WW-007
LAND TO BE DEVELOPED AS "HERRING)	(HERRING POINT)
POINT," LOCATED ON THE EAST SIDE OF)	
ANGOLA BEACH ROAD, SUSSEX COUNTY,)	
DELAWARE (FILED MAY 24, 2005))	

ORDER NO. 6712

**CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY
TO PROVIDE WASTEWATER SERVICES**

This 6TH day of September, 2005, the Commission determines and Orders the following:

1. By the provisions of 74 Del. Laws ch. 317 (July 6, 2004), the General Assembly and Governor included wastewater systems within the public utilities subject to the regulatory oversight of this Commission. See 74 Del. Laws ch. 317 (2004) (amending "public utility" definition in 26 Del. C. § 102(2)).¹

2. The law includes a specific regime for the granting of Certificates of Public Convenience and Necessity ("CPCN") to begin the business of a wastewater public utility or to extend the system and operations of an existing wastewater public utility. See 74 Del. Laws

¹The enactment continued, in the context of wastewater systems, exemptions from Commission oversight systems owned or operated by municipalities and specific water and sewer districts. 74 Del. Laws ch. 317 §§ 3, 5 (2004) (amending 26 Del. C. § 202(b)). The new law also exempted from Commission oversight wastewater public utilities serving fewer than fifty customers in the aggregate. 74 Del. Laws ch. 317 § 4 (2004), adding 26 Del. C. § 202(h).

ch. 317 § 6, adding 26 Del. C. § 203D. Under the statute, specifically 26 Del. C., § 203D(d)(2), the Commission shall grant a CPCN to an applicant if it has submitted a petition requesting wastewater services signed by a majority of the landowners in the proposed service area, as well as the proof that all of the landowners in the proposed service area were notified of the application. Under 26 Del. C., §203D(e), the Commission may deny a request for a CPCN if the applicant is currently subject to a Commission finding or, if the Commission finds that the applicant is unable or unwilling to provide safe, adequate, and reliable service to existing customers.

3. On February 22, 2005, by PSC Order No. 6573, the Commission adopted final *Regulations Concerning the Jurisdiction of the Public Service Commission to Grant and Revoke Certificates of Public Convenience and Necessity to Provide Wastewater Services* ("Regulations") which govern the process that non-governmental wastewater utilities serving, or planning to serve, fifty or more customers (in the aggregate) apply for and are granted a CPCN.

4. Tidewater Environmental Services, Inc. ("TESI")² is a public utility offering wastewater services, and is subject to the regulatory oversight of this Commission. On May 24, 2005, TESI filed an application with the Commission requesting a CPCN to provide wastewater services to one parcel of land located on the east side of Angola Beach Road, Sussex County, Delaware, and more specifically described by Sussex County tax parcel number 234-18.00-22.00.

²TESI is a wholly-owned subsidiary of Middlesex Water Company, the parent company of Tidewater Utilities, Inc.

5. As required by 26 Del. C., § 203D(d)(2), and Commission Regulations, TESI included in its application: (a) a petition requesting wastewater services signed by the owners of the parcel of land; and (b) evidence in the form of a United States Postal Service certified mail receipt showing that the landowners were sent notice of the Application. Also included in the Application was a Sussex County tax map showing the location of the parcel of land.

6. TESI is a new utility, with its first CPCN granted August 23, 2005 (PSC Order No. 6703). To the best of the Commission's knowledge, TESI is not presently providing wastewater services to customers in any of its certificated service areas. Thus, there is no determination to be made as to whether or not the utility is unwilling or unable to provide safe, adequate, and reliable service to existing customers. Commission Staff did notify the Division of Water Resources of the Delaware Department of Natural Resources and Environmental Control ("DNREC"), the Delaware Office of State Planning ("OSP"), and Sussex County of the CPCN application. There were no comments from any of these agencies indicating an objection to the Commission issuing a CPCN to TESI for this parcel of land.

6. Consequently, consistent with the statutory requirement, the Commission shall grant a CPCN to TESI to provide wastewater public utility services to the parcel of land identified in its Application.

Now, therefore, **IT IS ORDERED:**

1. That, pursuant to the provisions of 26 Del. C. § 203D(d)(2), a Certificate of Public Convenience and Necessity is granted to Tidewater Environmental Services, Inc., to provide

wastewater public utility services to the parcel of land located on the east side of Angola Beach Road, Sussex County, Delaware, and identified by Sussex County tax parcel number 234-18.00-22.00.

2. That Tidewater Environmental Services, Inc., shall comply with any and all federal, state, county, and local statutes, ordinances, orders, regulations, rules, and permit conditions that are applicable, or may become applicable, to any matter involving water utility services provided to the service territory granted by this Certificate of Public Convenience and Necessity.

3. That the Commission reserves the jurisdiction and authority to enter such further Orders in this matter as may be deemed necessary or proper.

BY ORDER OF THE COMMISSION:

/s/ Arnetta McRae
Chair

Vice Chair

/s/ Joann T. Conaway
Commissioner
