On June 25, 2012, pursuant to 26 *Del. C.* §201, §301, and §304, Chesapeake Utilities Corporation (“Chesapeake”) filed with the Delaware Public Service Commission (“the Commission”) an application proposing natural gas expansion service offerings to expand the availability of service to residents, communities, and businesses throughout its service territory, and specifically in areas of southeastern Sussex County, Delaware, where natural gas service is not widely available. In its application, Chesapeake, among other things, requested approval of a proposed Infrastructure Expansion Service Rate that, according to Chesapeake, would allow it to extend its distribution system further than it would otherwise be able to, by lowering the amount of the up-front payment required from new customers within certain areas of southeastern Sussex County.

At its meeting on July 3, 2012, the Commission suspended the proposed changes and determined to open a proceeding to investigate the application. On July 24, 2013, after several months of workshops and discussions with the parties to this matter, Chesapeake filed supplemental direct testimony outlining a

revised proposal (“Revised Proposal”) in which it modified several aspects of its filed Application. Chesapeake’s Revised Proposal can be viewed on the Commission’s website at: <http://dep.sc.delaware.gov/dockets/12-292%20CUC%20Supp%20Test.pdf>.

Under the Revised Proposal, the proposed Infrastructure Expansion Service Rate would only apply to customers within the designated expansion area in southeastern Sussex County and would be collected through the monthly customer charge. The effect on the monthly charges is outlined below showing the current customer charge for each classification (*i.e.*, RS-1, RS-2, GS, MVS, LVS and HLFS), which will remain unchanged, and the proposed charge for each of the expansion classifications (*i.e.*, ERS-1, ERS-2, EGS and EMVS):

Rate Schedule	Current Monthly Customer Charge	Proposed Monthly Customer Charge
RS-1	\$10.50	\$10.50
RS-2	\$13.00	\$13.00
GS	\$26.00	\$26.00
MVS	\$65.00	\$65.00
LVS	\$125.00	\$125.00
HLFS	\$75.00	\$75.00
ERS-1	n/a	\$16.50
ERS-2	n/a	\$31.75
EGS	n/a	\$56.00
EMVS	n/a	\$158.75

RS-1 and RS-2 are the two existing customer classifications for residential customers. If approved by the Commission, residential, general service, and medium volume customers within the designated expansion area would pay the monthly customer charge set forth in proposed Rate Schedules ERS-1, ERS-2, EGS, and EMVS respectively.

Under the Company’s proposal, the designated expansion area is defined as the area east of Chesapeake’s district regulator station located on Route 9 in Lewes, Delaware that is connected to Chesapeake’s distribution main *and* any area that is connected to Chesapeake’s distribution main behind the three (3) Eastern Shore Natural Gas transmission pipeline City Gates located in Dagsboro, Frankford, and Selbyville, Delaware as proposed in the original Application. Please see Attachment JRT-C to Chesapeake’s supplemental direct testimony, at the link provided above, for a map of the geographical region of southeastern Sussex County, Delaware,

designated as the expansion area.

Also contained in the Revised Proposal are proposed changes to the economic test the Company currently uses in order to determine what customer contribution, advance, or financial arrangement, if any, will be required in order for the Company to extend its gas lines to a customer. The proposed changes will eliminate the current exception to the application of the economic test to mainline extensions of less than 100 feet in length and, by revising the parameters of the economic test, will allow for more extensions to take place in the expansion area without requiring a customer contribution. For the details regarding the changes to the line extension policy, please see Chesapeake's supplemental direct testimony, at pages 5 – 7, at the link provided above.

You are invited to review Chesapeake's application and supporting documents to determine how your interests may be affected.
