On March 6, 2020, Delmarva Power & Light Company (“Delmarva” or “the Company”) filed an application (“Application”) with the Commission seeking approval for an increase in its electric base rates and certain changes to its electric tariff.

In its Application, Delmarva seeks an increase in annual operating revenues of \$26,915,207 or an increase of 3.44% over existing base rates. Delmarva’s proposed increase in base rates includes \$3,200,000 of revenues currently recovered through its Distribution System Improvement Charge (“DSIC”), which will be transferred into base rates.

The following is a breakdown by service classification of Delmarva’s proposed increases, which include the revenues currently recovered through its DSIC:

On April 22, 2020, in Order No. 9566, the Commission, pursuant to 26 *Del. C.* § 306(a)(1), suspended the effect of the proposed new rates and tariff revisions pending further investigation, a public comment session, and public evidentiary hearings. However, pursuant to 26 *Del. C.* § 306(b) and Order No. 9566, the Commission authorized Delmarva to place its proposed increases into effect, subject to refund, seven months after the initial filing date, which Delmarva did on October 6, 2020.

The Commission will make its decision on this matter on the basis of the record evidence taken at the public evidentiary hearings. Evidentiary hearings are conducted to formally introduce evidence into the record and to make available for cross-examination the parties' witness testimony, including testimony that may be offered with respect to any settlement agreement that may be reached by the parties prior to the hearings. Members of the public are invited to attend the evidentiary hearings as observers, but only the parties are permitted to present or cross-examine witnesses. At the evidentiary hearings, the Hearing Examiner will consider the Application, the pre-filed and 'live' testimony of the parties and any other pertinent documents submitted by the parties, including any settlement reached by the parties prior to the hearings. If a settlement agreement is reached, the evidentiary hearings will address whether it is in the public interest for the Commission to approve the settlement agreement. The Commission may approve or reject, in whole or in part, the proposed increase and tariff revisions and may apply a different method for allocating any increase it approves.
